**RENAULT**  
Passion for life

**RENAULT TRAFIC**

# RENAULT TRAFIC

## A few main features;

- Both manual and automatic available
- Carries up to 9 passengers including driver
- Lower, strengthened rear floor
- Lightweight, non-slip ramp
- Four point wheelchair securing and seatbelt warning system

At **BLUE LIGHT SERVICES** we love the NEW Renault TRAFIC because it's become the MOBILITY vehicle of choice for most of our customers. When you combine the adaptive versatility and spacious interior you can see why transport operators think it is a winning combination.

Comfort in the vehicle and on the road is also part of it's charm, an excellent performer, easy to handle, light steering, responsive ABS brakes and smooth assured driver controls. The NEW design gives you a smoother driving experience, with a refined, fuel efficient 2.0L Diesel engine and an automatic (efficient dual clutch) gearbox.

Revised styling gives you an expressive front-end design, with full-LED headlights (daytime running) incorporated into the C-shaped lighting signature. The new striking grille has details such as a new holder for the Renault logo and chrome finishing strip, protective wraparound front bumper.

The spacious cabin creates the perfect driving environment and accommodates two passengers in comfort. Optimum driving position is achieved with ease, with a height-adjustable driver seat and a height and reach adjustable steering wheel.

The NEW Renault TRAFIC is flexible, comfort, spacious - Mobility

## BLS CONVERSION

Our vehicle conversions are innovation full, providing ultimate infection protection, multiple interior wheelchair arrangements and the BLS seat belt warning system gives the driver extra passenger piece-of-mind.

The lowered rear floor creates a spacious environment with better visibility and the lightweight non-slip ramp makes wheelchair entry into the rear cabin space an easy manoeuvre.

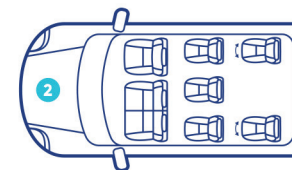

We design your vehicles bespoke to your needs, building beyond CEN (BS EN 1789:2014) certification plus a host of additional options are available to fully tailor your new Renault TRAFIC Mobility.

## VEHICLE DEMONSTRATION SERVICE

Let us bring the vehicle to you so you put it to the test. Test the driving experience, test all the important features and make sure it's the right vehicle for your needs before you commit.

To ensure that you get the most out of the demonstration we highly recommend you invite clients and service users along and remember this service carries no obligation.

## CUSTOMER CARE AT EVERY STEP

You've made a great decision BUT we also ensure our customer care team keep you updated throughout the entire conversion. Following delivery our after-sales team are always on hand should you ever need us.

## MOBILITY AND MORE

The Renault TRAFIC is a great choice for both Private requirements and Commercial Mobility Transport providers, Blue Light Services understand the importance issued to you to make sure your passengers are comfortable and safe - thank you for your trust...

**We can also advise on the various buying options.**
